Nevada City, CA 95959

Dear Mary Anne,

I want to take a moment to thank you for such a wonderful adventure for our senior group, and I have heard nothing but praise for you and for the experience. I can tell you I was asked immediately if I would plan another trip and do this again in the fall of the year.

Conversations have included discussions about you and how well organized you were, how thoughtful you are and much ado about all the treats and gifts you provided. There were a variety of statement about the wineries you chose for us to visit, each individual selecting their own favorite. Everyone was delighted with their luncheon meals and that couldn't have worked out better or have occurred in a more spectacular location.

In addition, the people we met at each winery were exceptional folks. At every stop we were made to feel welcome and we were certainly treated like invited friends rather than as strangers or guests. How great is that? I would ask you to extend sincere thanks to them on our behalf.

I appreciate that you went the extra distance for us in meeting with my daughter and me to help determine a dinner location and to gather all the coupons and offers provided.

For myself, it was wonderful. I was able to turn the group over to you and enjoy the entire experience myself, knowing we were in excellent hands. You did so very much for all of us. My rating on this experience is a double 10 and I can hardly wait for the next time around.

Thank you so very much!

Betty Horton
